

# Project based learning Primary 4

**Project topic:**  
Research animal habitats  
and why some animals are  
losing their homes.

## Tasks to be completed:

- Research any animal/s from around the world, with a focus on any that are experiencing a loss in their habitats.
- You must consider what a successful animal habitat needs and how different animals live together.
- Research their food chains and why they are important.
- Present ideas to the class on how we can all support animals and help rebuild and stop some of their habitats being lost.
